

**LONG TERM CONTROL
OF TREE ROOTS**

Lamontagne Arborist was asked to recommend a product which would control on a long term basis the growth of tree roots located on both sides of a new road. After consideration, Lamontagne Arborist suggested the use of Typar BioBarrier.

Typar BioBarrier, manufactured by Berry Global and is guaranteed for 15 years. This product is unique worldwide.

Digging the trench.

Installing BioBarrier vertically.

Tree roots will not invade the new road.
